

About NoteNest

NoteNest is a full-stack MERN application that helps students organise their study notes by subject, pin important notes and archive old ones.

Tech stack: React 18 + Vite, React Router v6, Context API + useReducer + useMemo, Node.js, Express.js, MongoDB Atlas + Mongoose.

Pinned Notes

📌 Normalization in DBMS

Programming

1NF removes repeating groups; 2NF removes partial dependency; 3NF removes transitive dependency.

Active

Unpin

Archive

Delete

📌 Binary Search Basics

Programming

Divide the sorted array in half each step; time complexity $O(\log n)$.

Active

Unpin

Archive

Delete

📌 React useEffect Summary

Programming

Runs after render; the dependency array controls when; return a cleanup function.
